PROFILE

Aspiring Full Stack Software Developer with strong skills in Java, C, and hands-on experience in building responsive web applications. Proficient in front-end development (HTML, CSS, JavaScript, React) and back-end technologies (Node.js, Express.js, SQL). Passionate about problem-solving, data structures, and contributing to real-world solutions. Quick learner, collaborative team player, and participant in national hackathons and ideathons. Adept in agile development, REST APIs.

EXPERIENCE

Design Volunteer

IETE SIES

2024-2025

- Volunteered as a design team member in the IETE Students Chapter.
- Created posters, banners, and social media content for events.
- Learned and used Canva and Figma for graphic design.
- Gained basic knowledge of design principles like layout, color, and typography.
- Collaborated with team members to maintain a consistent visual identity.

CERTIFICATION

Complete Web Development Bootcamp – Udemy

PROJECTS

Gym Management System

Java, Java Swing, JDBC, MySQL

- Developed a desktop app to manage memberships, payments, and class schedules.
- Implemented secure login and database integration for efficient gym operations.

Noted

JS, React

- Noted is a simple and intuitive note-taking application that allows users to create, edit, and delete notes with ease.
- Built using React, it offers a clean interface for organizing thoughts and ideas.
- The app stores notes locally in the browser, ensuring your data persists across sessions without the need for an account or internet connection.
